

Datasheet Breathing filter 203 P3 R

Designation:	Respiratory protection insert filter with bayonet connection Filter 203 P3 R Particle filter according to DIN EN 143	
Description:	Cylindrical housing with asymmetrical bayonet bayonet connection for connection to a double filter mask	
Article-Number:	126012 (packaging unit 4 pieces)	
Application:	In pairs in conjunction with half mask Duetta or full face mask Vista-pro DUPLA, for protection against particles (R = Reusable - reusable against particles)	
Standards:	DIN EN 133 DIN EN 143	Respiratory protective devices - Classification Respiratory protective devices - Particle filters
Identification color:	White (adhesive label)	
Materials:	Filter housing with bayonet connection Filter medium Particles	Polypropylene, blue Glass/cellulose fiber
Dimensions:	Diameter approx. 85 mm Height approx. 48 mm	
Weight:	approx. 65 grams per piece	
Inhalation resistance:	< 1.2 mbar at 30 l/min constant air flow < 4.2 mbar at 95 l/min constant air flow	
Handling:	Unpack the filter immediately before use (remove the foil) and connect to the mask (follow the arrows)	
Main application:	Designed for areas contaminated by dust and aerosols. The design guarantees the filtration of rust, dust, alkalis and pesticides.	
Service life:	The service life of particle filters depends on several factors such as concentration of pollutants, ambient temperature, humidity, work intensity, posture, etc. and therefore cannot be predicted. Opened filters must be replaced after 6 months at the latest.	
Application limits:	according to technical rules for hazardous substances TRGS 900 "Occupational exposure limits"	
	with half/quarter mask:	30 times the occupational exposure limit value

Revision 11.2023 – Errors and omissions excepted. All data are non-binding guide values.

Datasheet Breathing filter 203 P3 R

Instructions for use: The use of breathing filters requires a basic knowledge of the function and handling of respiratory protective devices. Information on this can be found in the trade association regulations and rules, in particular in DGUV Rule 112-190.

The use of respiratory protective devices generally means additional strain for the person wearing the respiratory protective device.

Most respiratory protective devices require occupational health screening in accordance with the "Ordinance on Occupational Health Care" (ArbMedVV).

Damaged filters must not be used.

Regulations / rules: Regulation (EU) 2016/425 on personal protective equipment
PPE Usage Ordinance (PSA-BV)
Ordinance on occupational health care (ArbMedVV)
BGV A1 Employer's Liability Insurance Association Regulation for Safety and Health at Work - Accident Prevention Regulation - Principles of Prevention

DGUV Rule 112-190 Employer's liability insurance association rules for safety and health at work - "Use of respiratory protective devices"

Hazardous Substances Ordinance (GefStoffV) with associated Technical Rules for Hazardous Substances (TRGS), in particular TRGS 402 "Determination and assessment of hazards during activities involving hazardous substances: Inhalative exposure" and other technical rules for hazardous substances.

Order details:	Article-Number	Description
	126012	Particle filter 203 P3 R
	914000	DUETTA half mask
	929105	Coarse dust pre-filter 35/70

Revision 11.2023 – Errors and omissions excepted. All data are non-binding guide values.
