

BARIKOS 

BARIKOS eye wash bottle

First aid eye wash without chemical additives

BARIKOS first aid eye wash bottle

Hygienic eye shower for work, family and leisure time

In case of an accident, seconds decide if eyesight is affected or not. Immediate help with eye wash bottles can prevent injuries and consequential damage.

Immediate eye rinsing with BARIKOS helps to prevent potential injuries in almost every circumstance. It is one of the best solutions until the doctor arrives. In chemical labs, manufacturing, handcraft, forestry or in family and hobby – it is always safely to have a BARIKOS eye wash bottle close at your hand.

Our eye wash bottle is subject to the standard DIN EN 1574-4, which provides for preventive use before injury, and has been the unrivaled means of choice for decades when something has gone in the eye.

BARIKOS eye wash bottles with patented tilt valve and a unique design help immediately after accidental contamination of the eyes with any object or chemicals of any kind.

Advantages of BARIKOS eye wash bottle at a glance

Wall boxes are available for both eyewash bottles sizes and can be placed in every hazardous work area.

- ✔ BARIKOS produced on ph-neutral water base is suitable equally well for acid and base contaminations, thus universally fit for action (no information about the contamination substance in the eye required).
- ✔ No risk of germs compared to other solutions (e.g. stationary eye showers).
- ✔ Careful rinsing due to ergonomically shaped eye recess and wide, fan-shaped spray jet.
- ✔ Complies with the standard DIN EN 15154-4 for safety showers.
- ✔ CE mark according to the Medical Products Act.

Immediate help

Seconds count in an emergency – to prevent injuries and damage.

100% ready for universal use

Universal eye wash – can be used without further knowledge about the object that has entered the eye, as it is ph-neutral and water-based.

100% fail-safe

Patented tilt valve allowing upward or downward irrigation with eye wash.
Anatomical spray head counteracts reflex closure of the opened eye.

100% aseptic

No risk of germination, as is often happens in stationary eye showers.

100% maintenance-free

2 years shelf life, with seal and servicing free.

With Safety.
