Basic Equipment Filter Device

With Safety.

Designation: Basic Equipment Filter Device; with Belt

Description: Corrugated hose with round-thread connectors according to DIN EN 148-1 for attachment to the breathing connection and for accommodating a screw filter with a round-thread connection according to DIN EN 148-1. Equipped with a plastic waist belt and strain relief.

Article-Number: 934010

Application: Used as an accessory in combination with breathing connections – full-face masks (DIN EN 136) or half masks (DIN EN 140) with a round-thread connection. It is intended for use when the filter is too heavy for the breathing connection (maximum 300 g for half masks, maximum 500 g for full-face masks), when the filter interferes with the breathing connection during use, or when the pollutant concentration can be brought within the permissible range by relocating the filter. The device transfers the weight to the hip. The carrying position is adjustable to front, side, or back.

Standards:	DIN EN 136	Respiratory protective devices – Full-face masks – Requirements, testing, marking
	DIN EN 140	Respiratory protective devices – Half masks and quarter masks – Requirements, testing, marking

Materials:	Corrugated hose 800 mm, connector Ø 22 mm	Anti-static rubber, black
	Female threaded connector	Rigid polyethylene
	Nozzle for round-thread connection	Moplen EP340M, black
	Round-thread connector (male thread)	Moplen EP340M, black
	Single-ear clamp	Chrome-nickel steel
	Waist belt	Polypropylene
	Heavy-duty buckle	Polyamide 6 with 30% glass fiber

Dimensions:	Waist belt	40 mm × 1400 mm
	Corrugated hose with connectors	approx. 900 mm × Ø approx. 31 mm

Weight: approx. 300 g

Order Information:	Article- Number	Description
